For Olympia And

The Wider Region

INTRODUCTION

This pamphlet serves as a short introduction to local and regional far right, fascist, nationalist, and white supremacist groups and their symbols. In the past few years many groups have dissolved and newer ones have risen to prominence so it felt time to put the spotlight on these groups.

This is further spurred by recent activity within the past two weeks (as of November 9th, 2021). The Proud Boys and Patriot Front have been engaging in a mass stickering campaign, as well as graffiti and banner drops from Patriot Front, around Olympia, Tumwater, and Lacey. Much of it has been targeted at defacing racial justice murals or remembrances of people murdered by police, or more high profiled the “Respect and Love Olympia” mural in downtown, which the non-profits who manage it cowardly caved to Patriot Front and took it down.

This, along with larger trends such as the reemergence of Northwest Front and Atomwaffen, the moral panics around “Critical Race Theory” and the conspiracies around the COVID vaccine, it’s obvious dormant and weakened sectors of the insurgent far-right see a shift happening and are trying to make their presence known and capitalize on it.

But this isn’t the first time this area has dealt with these groups – whether it was the recurring skirmishes with Patriot Prayer in 2017, the running out of town neo-nazi Hammerskins in 2015, or the 1992 neo-nazi murder of asian-american punk Bo Buchanan.

The first step to responding to these groups is putting the spotlight on them – letting everyone know who they are, what they are doing, and what they are organizing for, and putting names and faces together. Often this step is enough to scatter the least committed of them as they often don't want to be publicly associated with their beliefs and organizations.

The second step is to counter their moves – and the more adamantly we do it right now while they are sidelined to stickers and graffiti, the more we can mitigate more direct violence later on and hopefully avoid it all together.

So this is more than simply about 'Know Your Enemy', but a call to action to stop them in their tracks. Share this information with your friends, family, neighbors, and co-workers. If you see their stickers or graffiti, cover it up. If you see them flying their colors and uniforms, get pictures of them, try to get pictures of their vehicles and license plates. If you see them and it feels safe to do so, confront them and publicly and loudly let them know they are not welcome.

They thrive from fear, people looking the other way and not speaking out against them.

They crumble when people take an action against them.
